# RELIEF FOR A BETTER TOMORROW

## Painful Diabetic Neuropathy (PDN) Information Session

Painful Diabetic Neuropathy (PDN) is a condition that affects 20–25% of people with diabetes. PDN may cause severe pain in the limbs ranging from burning and freezing sensations, hypersensitivity or deep aching in addition to other symptoms. HFX for PDN is a therapy treatment, developed by Nevro, that provides pain relief for diabetic neuropathy. Learn how HFX for PDN works and determine if it's an option for you.

**Wednesday, January 26**  
**11:45 AM – 12:30 PM**
